For purposes of certification as a New Jersey Small Employer, an Employer is considered to be a Small Employer if the Employer satisfies the definition set forth below.

Employee and Small Employer Definitions

The definition of Small Employer counts employees as defined below.

<u>Employee</u> means an employee of the Policyholder. An individual and his or her legal spouse when the business is owned by the individual or by the individual and his or her legal spouse, partners in a partnership, sole proprietors, a 2-percent S corporation shareholder and independent contractors are **not** employees of the Policyholder.

<u>Small Employer</u> means in connection with a Group Health Plan with respect to a Calendar Year and a Plan Year, an employer who employed an average of at least 1 but not more than 50 <u>employees</u> on business days during the preceding Calendar Year and who employs at least 1 employee on the first day of the Plan Year.

All persons treated as a single employer under subsection (b), (c), (m) or (o) of section 414 of the Internal Revenue Code of 1986 shall be treated as one employer.

In the case of an employer which was not in existence throughout the preceding calendar year, the determination of whether such employer is a small or large employer shall be based on the average number of employees that it is reasonably expected such employer will employ on business days in the current calendar year.

The following calculation must be used to determine if an employer employs at least 1 but not more than 50 employees. For purposes of this calculation:

- a) Employees working 30 or more hours per week are full-time employees and each full-time employee counts as 1;
- b) Employees working fewer than 30 hours per week are part-time and counted as the sum of the hours each part-time employee works per week multiplied by 4 and the product divided by 120 and rounded down to the nearest whole number.

Add the number of full-time employees to the number that results from the part-time employee calculation. If the sum is at least 1 but not more than 50 the employer employs at least 1 but not more than 50 employees.

Please note: Small Employer includes an employer that employs more than 50 full-time employees if the employer's workforce exceeds 50 full-time employees for no more than 120 days during the calendar year and the Employees in excess of 50 who were employed during such 120-day or fewer period were seasonal workers.

Full-Time Employee Definition

The definition of Full-time Employee is used to determine <u>eligibility</u> for coverage under a small employer plan. Full-time employees are counted when determining participation for a small employer.

Full-Time Employee means an employee who works a normal work week of 25 or more hours. Work must be at the Policyholder's regular place of business or at another place to which an employee must travel to perform his or her regular duties for his or her full and normal work hours.

Please note that the above definition of Small Employer above considers full-time to be 30 hours per week and that definition of full-time is used solely for determining whether an employer is a Small Employer. For purposes of determining which employees are eligible for insurance under a Small Employer plan and whether the Small Employer meets the participation requirement, full-time is defined as 25 hours per week.

Please indicate below the number of employees by work location/State. Refer to the definition of "employee" on page 1. All employees must be included, regardless of whether or not they currently have medical coverage and through whom that coverage is provided.
