**Omaha-Address Information Change Request Form
(Updated July 28, 2014)**

Overview: Use the Omaha-Address Information Change Request form to change DBA/Corporate address and phone number, e-mail /URL address, statement/chargeback mail flags, and bankcard descriptor information.

To ensure timely processing, completed forms are to be submitted through Merchant Service Center (MSC) by opening a **Maintenance** request.

- Make sure the MID/DBA Name on the work order matches what is on the supporting documentation provided, including the completed maintenance form.
- Select **Omaha** as the Acquirer platform; select **Omaha, Buypass, Cardnet (North Bridge), or Nashville** as the Authorization Network (the front-end platform the merchant is processing on).
- When adding the work order, select **Merchant Account Update** as the work order category; select **DBA Information Update** for the work order type.
- Make sure all pertinent documents are attached to the work order, including the completed maintenance form.
- If the merchant is processing with Clover Station merchant, please indicate in the space reserved.

Pertinent items of note when completing the form:

- Please select the platform(s) for which the changes are going to apply. Also, please provide the MIDs for all platforms for which changes will be made. This will ensure that changes are made to both the authorization (front-end) and settlement (back-end) platforms.
- If updating information for a platform in addition to Omaha, please provide pertinent Buypass, Cardnet (North Bridge) or Nashville MID information in the reserved fields.
- Legibly enter values for only the fields you are seeking to update.
- A PO Box is not acceptable for the DBA Street Address; state to state DBA address changes will require credit review.

Requests submitted incorrectly will result in delays in processing, which may ultimately require the resubmission of your request.

Please allow 2 full business days for processing. Rush requests are processed on a best efforts basis.
